

TOM-TECH

Press release

Holzhäuser

Dittrich

Holzmann

1st, 2nd, 3rd and 4th place for TOM-TECH Haase-Team.

On 08/02/09 the 4th run of the German RMC took place in Wittgenborn (Vogelsbergring), the TOM-TECH Team displayed itself.

Minimax - Leon Wippersteg outclassed his competitors in rany pre-finals. He came in first, 9sec faster than the second. In the final run he caught a bad start und finished 4th.

Rotax Junio Cup - Once again Max Dittrich showed his great achievements. He browbeated the first-place-leader from the start. Over the race he tried a few overtaking manoeuvres. Fot not to jeopardise his position, he kept a clear head, drove in slipstream to a foto-finish and finally finished second. Our rookie Mathias Göbel came in 9th.

Rotax Senior World - Tobias Holzhäuser outclassed his compititors in dry pre-finals and also in rany finals. He gained a superior win with 13sec lead.

DD2 World - Alexander Möhring made a bad start but soon forged ahead to 4th position. His man in front blocked pass and took an agressive line, so the race got tougher. Alexander succeeded a few times in overtaking the driver in 3rd position. He got counterattacked, which led to seavearl changes in postions and finally to a collision. Beneficiary Alexander now ended race on position 3 with fastest laps. Ole Holzmann, who always staid close by Alexander, finished 4th. Because of the rough attacks of Alexander and his competitor, they both got defaulted in lack of sportsmanship. Ole Holzmann inherited the 3rd place and and became leader in Division DD2 World.
